Content:

Considering all the work already done to protect the rapidly diminishing Cumberland Plain Woodland Critically Endangered Ecological Community in Western Sydney I don't see why you would bother to commission another.

We all already know what needs to be done to save the Critically Endangered Cumberland Plain Woodland - stop clearing it. Leave what is left alone and restore the connectivity to all the remnants. A perfect example of a conservation program that is already happening is the Cumberland Conservation Corridor (Federal Government partner). Why don't you support this project, it would save a lot of time and money.
