Submission: Dear Sir/Madam, my property at 53 Aldington rd L38DP708347 in the draft plan was zoned conservation to my hugh supprise i am at a loss to understand why since it is high quality elevated land with no easments,this land not so long ago was grazing land which i used graze cattle till my health detierated,the few large gum trees then seeded which i now have predominatly low scrub and lots of dead trees this land is NOT cumberland wood plain. Points to take into account, there only 2 lots in the inner circle boarded byMamre rd,Bakers lane, Aldington rd,& Abbotts rd zoned conservation,the land is elevated with no easments surrounded by industry current zoneing makes it a fire hazard to the surrounding buisnesses, industry is crying out for more quality land,more jobs for the area,i believe to leave it as currently drafted will be a hugh missed opertunity.Would love to meet with officials from the Dept to disscuss this issue further if possible.Yours Sincerly Ted Pochodyla.
