Submission Type:I am making a personal submission

Name Withheld: Yes

Submission file: [webform\_submission:values:submission\_file]

Submission:  To whom it may concern. We are located in close proximity to the Western Sydney Aerotropolis, the proposed M12 and the proposed intermodal terminal location. All of these combined will create a further demand for industrial land in the area. We are of the opinion and hope that our property will be zoned to industrial use. Our neighbour and ourselves will remove the dam that is located on our property to allow for the indicative Riparian drainage corridors which will help to reduce the flood affectation of the locality where they are implemented. We thank you for the opportunity to make this submission.
