Submission file: [webform_submission:values:submission_file]

Submission: The Strategic Conservation Area hatched on our farm makes our farm totally useless. The hatched area has obviously not been ground truthed - the hatched area has been farmed for at least a century that we know of, particularly for peas. Yes, we have a Biobank - we have been very proud of being able to combine farming with Preservation. Would you please remove this additional limitation to our farm? We are already going to struggle with the Draft Rural Land Strategy which overlays your mapping - either that, or, the State Government just buys our farm for a market price and be done with it. Lot Number: [REDACTED] Section Number: Plan Number: [REDACTED] Plan Label: [REDACTED] Area (hectares): [REDACTED]
