Suburb/Town & Postcode: 2748

Submission file: [webform_submission:values:submission_file]

Submission: We live on one of your proposed [REDACTED] blocks of land [REDACTED]. If you call this [REDACTED] you haven't looked very close or your people don't know what they are doing. When the land was bought it was cleared of native bush and a dam was dug nearly every thing in there is feral including the trees, no native wild life, too many cats, rats etc. We just let it go so we didn't have to look at the houses across the road. The creek is a storm water drain blocked by next door's driveway so it floods. There is sewerage running in to it from the houses across the road. Hence the greenery your 40 years too late. You need to look more closely it would be great if it was native and saved but it's not significant. Council should have stopped people clearing years ago sadly it's too late. There is nothing left. If you need more information you may contact me.
