

To whom it may concern, I Mikhael Dib from both [REDACTED] Wilton am writing to you regarding 'Public exhibition of the Draft Cumberland Plain Conservation Plan' (Relevant lot/s: [REDACTED]).

Thank you for your letter, the photo mapping you used for the analysis is not representative of how it is now in September 2020. My properties have been modified by a legal change of use in accordance with Council approvals and application of the Local Land Services Act guidelines, and the vegetation has diminished greatly due to successive years of drought.

It is as if the analysis was conducted using much older photographs than the one used in the overlay you sent in the September 2020 letter.

I extend to you an invitation to ground truthing of my land and to discuss your findings with my BAM assessment.

Yours Sincerely,

Mikhael Dib
