Submission file: [webform_submission:values:submission_file]

Submission: I would like all residents in the 'draft E2 zoning' to be contacted before the October draft plan end date, to ensure they are aware and for them to have their say. Many elderly do not have social media and due to Covid-19 are not getting out to buy papers. Local papers are not delivered to many rural areas. If the goal is to recognize and protect critically/endangered Cumberland Plain, then clearing in one area and protecting in a different area using the excuse of offset program or stewardship program doesn't make sense. 'Critically' endangered plants grow where they grow. Bulldozing will not save them. I disagree with the concept of offset and stewardship programs.
