Suburb/Town & Postcode: WILTON

Submission file: [webform\_submission:values:submission\_file]

Submission: My property was identified as being affected by the proposed conservation E2 zoning. My property is [REDACTED] Wilton 2571. The proposed plan scale is that small it would be impossible to identify if it is or not. It would appear that creeks are the main area for rezoning and my property does not have a creek running through it. The creek is outside my boundary and I attach a photo of the corner near the creek that proves it does not flow through my property. Therefore this rezoning does not affect my property. Irrespective of this, to place an E2 zoning over a property, now that has been owned for some thirty years is unreasonable and totally disrespectful to those owners that have been waiting patiently for land to be Residential like the surrounding large development companies.
