Submission: Dear Sir. In regard To the Draught Cumberland Plain Conservation Plan. I note this plan significantly impacts property owners between Menangle and Douglas Park where property boundaries align the Nepean River, while I support the conservation of bushland in close and immediate proximity to the River, I oppose the labelling of large tracts of peoples land as strategic conservation area, even though it is virtually cleared and used for stock grazing for many years. I also note that the Greater Macarthur 2040 interim Plan has flagged this area as potential employment land, no doubt because of the proposed Outer Sydney Orbital Interchange that will be located halfway between Menangle and Douglas Park, providing fast access to the Western Sydney Airport, recently the Minister for Western Sydney Stuart Ayres stated that NSW was in short supply of employment land, the Cumberland Plain Conservation Plan appears to differ significantly with the Greater Macarthur 2040 interim Plan in this regard. The encroachment of vegetation to far from the Nepean River will only encourage wild-life to migrate onto Moreton Park Rd and the M [REDACTED] with disastrous consequences. Yours Sincerely. Ray Smith.
