Submission: Cumberland Plain Conservation Plan should be just that and not a development plan.. Cumberland Plain the Flora ,Fauna , Creeks, Reserves. should be protected from development not destroyed by development. Places like South Creek ,Wianamatta Regional Park should not have roads going through them .with the massive housing estates surrounding this Regional Park .It is a very busy Park .for locals. .With South Creek a vital Creek ,and Wildlife Corridor for rare Flora and Fauna we cannot afford to lose this to roads. Nor should there be massive motorways cutting a swathe through Cumberland Plains in the Camden, Razorback or Cobbitty areas.. These areas are habitat for Australian Birds, Marsupials, Reptiles , Fish etc. The motorways would cause a massive loss of Fauna and Flora.. With the fencing along Appin Road to protect the Koalas we need Wildlife Overhead Bridges to save the Koalas , Kangaroos, Wallabies from fires and allow the safe East-West and North South Movement. The proposed fence will not work for Koalas and many species. The Koala Reserve should be a National Park. It should be put in place now not in five or ten years. No public land offsets for developers and no taxpayer subsidies of developer offsets. Our State and other Taxpayers can't afford to subsidise developers..
