Submission: If we must put more people in Western Sydney then it is critical we protect the spaces we have always taken for granted out here. Overall I think the plan ticks the boxes, I do hope that it is carried out in accordance with these guidelines... Heat, protection of our precious flora and fauna, education and respect for country needs to be more than words on a page.

Overpopulation is also a concern for me. I will follow along with much interest... the airport will also change life out here and the infrastructure needs to keep up as well.
