Suburb/Town & Postcode: Douglas park 2569

Submission file: [webform_submission:values:submission_file]

Submission: Lot [REDACTED] I strongly oppose my property being included in the strategic conservation area. We have been farming on this property for more than 25 years and have invested all our time and money into the property. This will greatly effect our potential return on our investment since more than 50% of the property is included, which in turn effects what we and future land owner will be allowed to do on the property. In the time we have been on this property we see no reason as to why our property and neighbouring properties need to be listed for conservation. We feel that previous consultation on the matter did not include land holders that will be effected due to the fact that neither I or my neighbours were aware of the conservation plan until one day before close of submission, therefore more time is needed for consultation and submission. Also current planning and land clearing laws I feel are sufficient to protect the biodiversity of the area without greatly effecting land holders.
