Submission: This CPCP 2020 is a land grab. Its theft and it will only help developers escape paying the full cost of the environmental destruction caused by their ghastly new urban slums. A Labor Government paid fair price for land when it created the Western Sydney Parklands. At today's dollars that was over \$1 million per hectare. Now the free enterprise Liberals are given a plan crafted by corporate interests to justify stealing private property just so big corporates can profit. Who runs this state.....the elected government or the corporate board rooms. Its easy to tell where this rubbish called the CPCP 2020 was written. Rob Stokes, you were a Barrister and Lecturer in Planning, is this really your vision for how Planning is to work in NSW ? There is not much kudos in this rubbish Shame, shame shame, this is a project management shambles that reflects poorly on the State Government
