Submission file: [webform_submission:values:submission_file]

Submission: Clearing endangered ecosystems and isolating approx 60% of the remaining wildlife areas (by surrounding them with roads) is not acceptable. Campbelltown Council calls themselves Koala Town, but that is nothing but a farce, when our State Government rides roughshod over the healthy colonies of koalas that live along Appin Road and through Gilead (Figtree Hill development). I would like to see the protection of 500m wide koala corridors- particularly at My Gilead, and ending the clearing of critically endangered Cumberland Plain Woodland. I would like our Planning Department to transparently say "no" to developers, who are demonstrating a clear priority of corporate greed over saving endangered flora and fauna.
