Orchard Hills

According to the plan you have marked my hole properly E 2 Conservation.

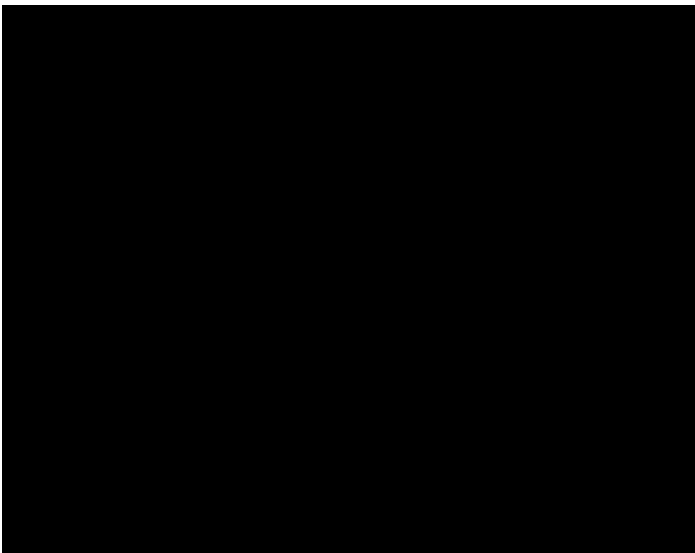

I would like to object due to this place was originally farmland. ATM there is trees in the horses paddock that came in the last 40 yrs. I will accompany photos with this objection .

I currently live on the property. The building on my property is house, sheds and horses facilities. There is a dam on the property was here about 40 yrs ago, which was used for water the orchids.
There no native bush on the property. Only the trees that came up in the last 40 yrs.

Kind regards
