

[REDACTED]
Wilton NSW 2571

Dear decision makers,

We would like to lodge with you that we oppose the Draft and proposed rezoning of parts of Wilton from RU2 to E2.

We have owned [REDACTED] for since June 1996 and two years ago purchased [REDACTED] both properties have been purchased with thoughts as an investment for the future and our families.

[REDACTED] currently does not have a dwelling on it BUT it was purchased with confirmation from the Wollondilly Council that it does have building permission, would your proposed rezoning affect this? Clarification would be appreciated.

WE consider ourselves caretakers of this land, we teach natural horsemanship and look to regenerative farming methods, so understand the need to nurture and work in partnership and harmony with this great parcel of land.

Maybe you could come and visit our properties and share more in person about the proposed plans and your vision for the future.

Yours sincerely
