

Snowy Monaro Planning and Development Community Participation Plan

Environmental Planning and Assessment Act 1979

The requirement for community participation plans was formally included in the Environmental Planning and Assessment Act 1979 in 2018. Community participation plans are designed to make participation in the planning system clearer for communities. It achieves this by setting out when and how the community can participate in the planning system.

Acknowledgement of Country

Snowy Monaro Regional Council acknowledges that Aboriginal people were the first people of this land. Council recognises the Ngarigo people as the traditional custodians of the majority of the region we now know as the Snowy Monaro region. We pay respect to knowledge holders and community members of the land and waters and to Elders past, present and future.

1. Community Participation in the Planning System

Community participation and stakeholder engagement are vital for successful planning outcomes. Snowy Monaro Regional Council's Economic Development and Tourism unit have developed this multi-faceted framework to engage with the community. This Community Participation Plan has been prepared in line with the *Environment Planning and Assessment Act 1979* (EP&A Act) and the Department of Planning and Environment Guidelines. This plan outlines the legislative requirements and Council's policy for community participation in the planning system including but not limited to:

- Development Applications
- Planning Proposals and Plan Making
- Development Control Plan Amendments
- Nominated Integrated Development
- Designated Development

Community participation is an overarching term covering how we engage the community in our work under the EP&A Act, including plan making and making decisions on proposed development. The level and extent of community participation will vary depending on the community, the scope of the proposal under consideration and the potential impact of the decision.

The community includes anyone who is affected by the planning system and includes individuals, community groups, Aboriginal communities, peak bodies representing a range of interests, businesses, Local Government and State and Commonwealth Government agencies.

Objectives

- To provide opportunity for those potentially impacted by development to comment on possible impacts
- To provide clarity and consistency in the notification process
- To specify development/s considered 'advertised development' for the purposes of the Act
- To outline circumstances in which direct notification and/or advertising will be undertaken

2. What is a Community Participation Plan

Community participation plans were included in the *Environmental Planning and Assessment 1979* in 2018 and have to be in place by 1 December 2019. Community participation plans are designed to make participation in the planning system clearer for communities. It achieves this by setting out when and how you can participate in the planning system.

Community participation plans are outlined in Division 2.6 of the *Environmental Planning and Assessment Act 1979* and must contain, as a minimum, those items stated in Part 1 of Schedule 1 in the *Environmental Planning and Assessment Act 1979*.

Table 1 and 2 below outlines the legislative requirements for public notification of documents and Table 3 below outlines Council's policy on notification for all other planning related matters.

3. Community Participation Plan Principles

The following community participation principles guide Council's approach to community consultation and engagement:

- ***The community has a right to be informed about planning matters that affect it***
- ***Planning authorities should encourage effective and on-going partnerships with the community to provide meaningful opportunities for community participation in planning***
- ***Planning information should be in plain language, easily accessible and in a form that facilitates community participation in planning***
- ***The community should be given opportunities to participate in strategic planning as early as possible to enable community views to be genuinely considered***
- ***Community participation should be inclusive and planning authorities should actively seek views that are representative of the community***
- ***Members of the community who are affected by proposed major development should be consulted by the proponent before an application for planning approval is made***
- ***Planning decisions should be made in an open and transparent way and the community should be provided with reasons for those decisions (including how community views have been taken into account)***
- ***Community participation methods (and the reasons given for planning decisions) should be appropriate having regard to the significance and likely impact of the proposed development***

The community participation plan principles are core to the public engagement approaches undertaken by Council in relation to planning matters. These principles guide Snowy Monaro Region communities' participation in the planning System.

4. Importance of Community Participation

In line with our community participation objective, we encourage open, inclusive, easy, relevant, timely and meaningful opportunities for community participation in the planning system, our planning functions and individual proposals.

To achieve this, we design our engagement approach so that even where there may not be community wide consensus on the decision or outcomes, there can be acknowledgment that the process was fair with proper and genuine consideration given to community views and concerns.

Above are some examples of community consultation. Traditionally community consultation consists of public meetings and workshops which often involve informing the community of what has been done so far and what will happen. These are however, not always the most appropriate methods of gaining broad community input, views or opinions. There are times which informing is the most appropriate approach and other times more collaborative approaches are warranted. As outlined below Snowy Monaro Regional Council wish to inform, consult and involve the community where appropriate.

IAP2'S PUBLIC PARTICIPATION SPECTRUM

The IAP2 Federation has developed the Spectrum to help groups define the public's role in any public participation process. The IAP2 Spectrum is quickly becoming an international standard.

INCREASING IMPACT ON THE DECISION

	INFORM	CONSULT	INVOLVE	COLLABORATE	EMPOWER
PUBLIC PARTICIPATION GOAL	To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.	To obtain public feedback on analysis, alternatives and/or decisions.	To work directly with the public throughout the process to ensure that public concerns and aspirations are consistently understood and considered.	To partner with the public in each aspect of the decision including the development of alternatives and the identification of the preferred solution.	To place final decision making in the hands of the public.
PROMISE TO THE PUBLIC	We will keep you informed.	We will keep you informed, listen to and acknowledge concerns and aspirations, and provide feedback on how public input influenced the decision.	We will work with you to ensure that your concerns and aspirations are directly reflected in the alternatives developed and provide feedback on how public input influenced the decision.	We will look to you for advice and innovation in formulating solutions and incorporate your advice and recommendations into the decisions to the maximum extent possible.	We will implement what you decide.

5. Legislative and Policy Requirements for Public Exhibition

5.1 Objectives

- To provide opportunity for those potentially impacted by development to comment on possible impacts
- To provide clarity and consistency in the notification process
- To specify development/s considered ‘advertised development’ for the purposes of the Act
- To outline circumstances in which direct notification and/or advertising will be undertaken

5.2 Prescriptive requirements

5.2.1 Application

This chapter applies to all development applications which pertain to lands in the Snowy Monaro region. Note that development applications do not necessarily include new building works.

This chapter does not apply to development which is exempt or complying development.

Council imposes a fee upon applicants for costs incurred in providing notice to the community. Fees are specified in Council’s Fees and Charges.

5.2.2 Provision of a public notification period

Where notification is required, Council provides a period of notification of fourteen (14) calendar days unless another period is outlined in tables 1, 2 or 3.

Tables 1, 2 and 3 detail the minimum notification requirements for different types of development applications. Notice as prescribed by tables 1, 2 and 3 is provided during the notification period. Ordinarily, notice is only provided for development types featured in the tables.

At the commencement of the notification period, direct notice of development applications is sent to applicable property owners (as noted in tables 1, 2 and 3). This is described in Section 5.2.3.

During the period of public notification the development application and accompanying documents will be available for inspection at Council’s main and branch offices during normal business hours.

The period **between 20 December and 10 January (inclusive)** is excluded from the calculation of a period of public exhibition.

Community members may make submissions during the public notification period as described at Section 5.2.7 onwards.

In certain circumstances Council may waive notification requirements. These circumstances include where there is no discernible impact from the development and where notifying the public would be futile.

5.2.3 Means of direct notification and who will be notified

Direct notice of development applications is sent as a mailed letter to applicable property owners (as noted in tables 1 and 2) as listed in Council's records.

For a property with multiple owners, written notice to one owner is considered notice to all owners (as per clause 88(2)(c) of the Regulations). Council notifies all owners if aware of their address details in association with the property.

If land is a lot within the meaning of the *Strata Schemes (Freehold Development) Act 1986*, written notice to the owners' corporation is considered written notice to the owners of each lot within that strata scheme.

If land is a lot within the meaning of the *Strata Schemes (Leasehold Development) Act 1986*, written notice to the lessor under the Leasehold Strata Scheme concerned and to the owners' corporation is considered written notice to owners or occupiers of each lot within that Scheme.

In all instances detailed in the preceding two paragraphs, Council reserves the right to give individual notice to owners within strata schemes.

5.2.4 Additional provision of public notice

Council reserves the right to distribute or otherwise provide notice to the community additional to requirements outlined in sections above and in tables 1, 2 and 3. Additional notification occurs at discretion of Council officers having regard to potential impacts of proposed development. Costs of additional notification are borne by the applicant.

5.3 Legislative requirements to provide public notice

Notification requirements for some types of development are legislated by the State of New South Wales. Council must follow the requirements of NSW legislation. These types of development are listed in Table 1 and Table 2. Further detail is contained within the legislation and any relevant environmental planning instruments.

Note: Where development falls into multiple categories, the greater notification requirement is fulfilled. Council may also broaden notification beyond adjacent and opposite owners where the pattern of lots near the development is unusual.

Some proposed developments are amended by applicants prior to determination. Council will provide renewed notice of amended proposals where potential impacts of the development are significantly altered. Those notified of the original proposal or who made a submission will be notified of the amended proposal in those cases.

Written objections made to original development proposals will still be considered by Council in determination of amended development applications. If objections are withdrawn following amendment and re-notification these are not considered by Council in its final determination.

Development identified by Table 2 as requiring advertising in the newspaper is considered to be 'other advertised development' for the purposes of the Environmental Planning and Assessment Regulations 2000.

5.5 Submissions

Submissions regarding development applications may be made by any person. To have received formal written notification is not a condition of submission.

Submissions are required in writing. All submissions must be received by Council by close of business on the final day of the notification period. Extensions are granted at the discretion of Council officers. Potential late submitters should contact Council to confirm the granting of such extensions.

Emailed submissions are preferred for reasons of promptness. Emailed submissions must include signature(s) of submitter(s). When emailing submissions, such emails must include the relevant DA number in the subject of the email and must be sent to records@snowymonaro.nsw.gov.au for formal registration.

Signed submissions can be sent by mail or hand delivered to Council offices. Council will accept postal correspondence marked on the day of closure of the notification period. Original facsimile/s will be required not more than seven (7) days from the final day of the notification period.

Submissions must clearly state the relevant development application number and the name and address of the person making the submission if this is an objection; the grounds of objection are required to be specified.

Submitters should provide Council an email address to receive notice of Council meetings where the application may be considered. Council will formally acknowledge any submissions received.

Please note: comments made via Social Media are not considered a submission.

5.6 Political donations

When making a written submission to Council objecting to or in support of a development application the person who makes the written submission is required to disclose any reportable political donations and gifts made by the person making the submission or any associate of that person within the period commencing 2 years before the submission is made and ending when the application is determined. This includes:

- a) all reportable political donations made to any local Councillor of that Council (a reportable political donation made to a 'local Councillor' includes a reference to a donation made at the time the person was a candidate for election to the Council). Reportable political donations include those of or above \$1,000; and
- b) all gifts made to any local Councillor or employee of that Council.

If you think that the above may apply to you Council urges you to read and complete the 'Political Donations Disclosure Statement' and return it with your submission. Please note that failure to disclose this information or make a false disclosure is an offence. This form is available from Council's website or offices.

5.7 Late Submissions

Council does not guarantee submissions received following closure of the notification/advertising periods, without an extension having been granted, will be considered in determination of the applications.

5.8 Submissions are Public Documents

If an application is to be determined by Council at a Council meeting any submission made will be reproduced in the business paper for that meeting which is a public document. Council endeavours not to publicly disclose any personal information contained in attached submissions.

Interested persons may view or obtain submissions made in respect of development applications. There is no entitlement to view or obtain personal information contained in any submission. Such permission is obtained through a formal process designed for this purpose.

5.9 Other Community Participation Requirements

- A public authority is not required to make available for public inspection any part of an environmental impact statement whose publication would, in the opinion of the public authority, be contrary to the public interest because of its confidential nature or for any other reason
- Timeframes are in calendar days and include weekends
- If the exhibition period is due to close on a weekend or a public holiday we may extend the exhibition to finish on the first available work day
