The ePlanning program 2019

Milestone releases of key digital services on the NSW Planning Portal

C & R 1.1
- Release of an API (Application Programming Interface) to allow integration of State agency IT systems with Online services.
  - January 2019

DA 2.0
- Integration of the Online DA service with the Online Concurrence and Referral service. It enables councils using both to request State agency advice from one dashboard.
  - March 2019

Integration of the Online DA service with the Online Concurrence and Referral service. It enables councils using both to request State agency advice from one dashboard.
  - March 2019

C & R 2.0
- Following reforms to the EP&A Act, the Secretary can now intervene on behalf of agencies where there is conflicting advice between or unnecessary delays. This release enables all councils to request Secretary’s Intervention online.
  - March 2019

Portal 3.0
- Enhancement of the NSW Planning Portal to enhance user experience.
  - May 2019

DA 2.0
- Release of the ePlanning Spatial Viewer, a digital mapping service showing how planning instrument mapping applies across NSW.
  - May 2019

Planning Panels
- An enhanced and more simplified Planning Panels Secretariat workflow was released. This includes the creation of a new Planning Panel website and enables all councils to register DAs with the Panel.
  - June 2019

C & R 2.0
- Planning Panels
  - June 2019

DA 3.0
- Enhancements to the Online DA service to include integration to SIC, SVPA, and Planning Panels assessments.
  - June 2019
