Submission

“Strategy 5.1 is aimed at creating and enhancing green and open spaces. Kiama Heights has the least open green spaces in the Kiama Municipality and the little we have is under threat. It is crucial that the parkland at 85 Attunga Ave is retained and that other options for creating open spaces and parkland are investigated and acted on.

Kiama Heights is a rapidly growing community and many young families are moving to the area. It is also being rapidly developed with housing estates being built all around. It is also a key area in the tourist industry with a number of short term rental accommodation options in the locality. This contributes greatly to the economy of Kiama but will start to pall as both a tourist destination and a desirable place to rear a family if its community amenity is degraded by loss of existing green and open space.

I urge Kiama Council and the implementation team for the regional plan to commit to retaining and expanding green spaces in Kiama Heights.”
