Submission

I am a local to Port Kembla, I look this area and see the industry, the smoke and dust, and want more for our kids, than just exploitation of our resources, why not look at the beauty of our land and make it better.

We have climate change breathing down on us, this is a carbon neutral employment opportunity, that will reap ten fold what it costs.

Plus we plant more trees, and get people out and about walking.

How did you hear about this?
