**Submission**

I strongly oppose the exclusion of Rosebery from the NSW low rise building code.

I believe that it is beneficial for all property owners that two storey houses are allowed to be built in our area. There are many two storey properties that have already been built, and they look great. Why should people that want to go up another level be deprived of this.

It's madness by the few minority voices that are jumping up and down about this. We've waited long enough for Rosebery to be included. DON'T put us back on the wait list.

**I agree to the above statement**

Yes
