Submission

Our family has lived in Rosebery for over 40years and we have always loved that our suburb was a bit of a secret and yet so close to everything. People would know Mascot, Kingsford or Waterloo which we would call out by way of giving an indication of where to find Rosebery.

The nature of its village atmosphere is something that we have always loved and enjoyed and we would support any measure that will retain its special character and landscape.

We do not want it overtaken by oversized single or two storey homes, especially those that have not made any attempt to blend in and become an eyesore in the street.

I agree to the above statement

Yes
