**Suburb/Town & Postcode**

Pyrmont

**Please provide your view on the project**

I object to it

**Submission**

I object to any proposal that increases density in the Pyrmont peninsula whilst the public transport options continue to be so limited. We have a non functioning light rail. It is supposed to be partially activated in a few weeks but no comment from Transport as to how partial this is. We have a single new bus route that leads to the southern part of the city only. Despite numerous submissions to Transport and questions on notice by the local member, the new route totally unsatisfactory for those who wish to go north of Park St. There is a ferry service that only services Glebe. In the 8 years that I have lived on the peninsula, transport options have seriously been reduced. How can the government contemplate increasing the number of people who live here. I can only believe that it developer pressure rather than civic amenities.

**I agree to the above statement**

Yes
