**Suburb/Town & Postcode**

2009

**Please provide your view on the project**

I object to it

**Submission**

As a boat user at the Pyrmont pier with a berth in the entertainment area proposal zone, I strongly object to the 'Pyrmont Bay pier connection' as it would remove my berth which I use 3 to 4 times a week and as a retiree living in the area would greatly affect my health and well being.

This can be an area for general public and locals without the exclusion of one or the other.

I Object to this proposal as it puts public above the locals and is not necessary as everyone can walk along the piers and no extra access necessary, especially a foot bridge that reduces the number of berths available to the locals.

**I agree to the above statement**

Yes
