I object to it

**Submission**

I object to affordable and social housing sites being designated as capable of change. If we were to lose the few sites that we do have in Pyrmont then there is no way that they would ever come back to the area again.

Do we really need to create space for a further 23,000 jobs in this area. There are so many office blocks in the city and more are being built just across from Pyrmont in Barangaroo. Surely all these can't be at full occupancy.

To takeover affordable and social housing to put in high rise offices that aren't required cannot be justified.
