Submission

To whom this concerns

This submission is for someone in government who will give us some kind of understanding how we the everyday Mum and Dads who have invested there whole life in this community,we need to understand why we have been casted aside by a government dept

We are locked in to a aerotropolis with no time frame no town water,living three klms away from a 24/7 airport on our doorstep,this is a human rights issue not having unpolluted water for drinking,it's so important for our precinct to either have mains water connected prior to airport operation,also a time frame for the uptake of this land as we are strategically positioned and government need a communication line with all these land owners in this southern gateway as was the name you government called this strategic position of this 748 hectares

Regards
Ken Burnett

I agree to the above statement

Yes
