Submission

To whom

The problem I have is we live with another two hundred and thirty residents 3km away from the airport in the Dwyer rd precinct, with no town water connections, have pollution from the airport operations polluting our roofs with dust and air pollution which is a human right violation, to be able to have clean drinking water, the zoning of this precinct should have been done in the first zoning, could you please explain why this has not happened, we are three kms away from this airport stuck in amongst all the infrastructure all around this precinct

Regards Ken Burnett

I agree to the above statement

Yes
