

Have your say on the precinct plans

Thursday 26th November

Dear Department of Planning Representative,

I am a Year 8 Cranbrook student studying the topic of Place and Liveability in Geography. One aspect of my course is learning about the aspects that create the “perceptions of liveability” and how these aspects contribute to the overall sense of wellbeing and quality of life to a specific location.

My teacher introduced our class to the Government planning that is currently being undertaken for the new Western Sydney Aerotropolis. She has asked us to provide feedback to your department and rate the planning that is being undertaken for the aerotropolis using the perceptions of liveability criteria that we have learnt in class. In order for our feedback to be valid she has also asked us to support our opinions with evidence.

Please see my comments and feedback below

Kind Regards,

(insert your name)

Perception of Liveability criteria	Feedback	Evidence
1. Stability	<p>Employment:</p> <ul style="list-style-type: none"> • Agribusiness precinct has the ability to employ people within the production of high quality fresh produce. <p>Safety:</p> <ul style="list-style-type: none"> • It provides safety for people within the town by enforcing law a lot more heavily and offering more way to keep people safe. 	10,000 jobs will be created by 2056 and will highly improve societies advancements.
2. Environment	Outdoor space:	

	<ul style="list-style-type: none"> • The outdoor space provided is useful to help keep people healthy and keep their physical health well in check. <p>Pathway:</p> <ul style="list-style-type: none"> • It provides some a way to keep healthy while also improving walkability and preserving some of the environment. <p>Greenspace:</p> <ul style="list-style-type: none"> • The environment being preserved is decent as it does try hard to preserve the environment, but the urbanisation and infrastructure doesn't assist it. <p>Parklands:</p> <ul style="list-style-type: none"> • Parklands being preserved 	
3. Health Care	<ul style="list-style-type: none"> • Health care is provided very well already throughout the precincts and provide the residents with a better liveability. The facilities provided will also help improve liveability. 	
4. Education	<ul style="list-style-type: none"> • Schooling: • The education in the cities plan is overall well produced and the education being provided in their well improve the overall employment rate later in life. <p>Facilities and education.</p> <ul style="list-style-type: none"> • Facilities and education institutes provide skills needed for those in need of them and they help provide a way to learn. 	
5. Infrastructure	<p>Structures and building.</p> <ul style="list-style-type: none"> • The infrastructure being built there as well as roads and buildings are very advanced and well made they also improve the development in society and provide many 	

	<p>jobs during the process of building it and then what comes after it's built.</p> <p>Internet and networks:</p> <ul style="list-style-type: none">• The advancements of networks help improve the societies development and the way people connect with each other in the modern age.
