Submission
Well surprise, surprise another large parcel of land owned by a wealthy government donor sold for well over the one million dollar per acre and yet poor land owners are forcefully trapped against their will in ridiculous new zonings such as Environmental causing their land value to plummet is totally wrong and down right unlawful. The actions of this current government and department of planning has created immense stress, anxiety and mental health issues to us land owners with absolutely no care factor from the Liberal government and planning department. Thankfully some members of the party have now recognised these immoral actions and will hopefully take action. Thank you Tanya Davies for having the guts and decency to attend todays meeting and see and hear first hand the hurt and stress this is causing residents. Please do everything in your power to help us. If you want our land for trees, bio-diversity, park lands etc. you must pay fair prices for our land now not years down the track. DO THE RIGHT THING, put yourselves in our shoes, how would you feel??

I agree to the above statement
Yes
