Dear Sir/Madam,

I am writing to express my disappointment and dissatisfaction with green space proposal around the Badgerys Creek Airport in specific the Aerotropolis. The plans have not only affected land owners but have also increased the risk of birds and other wild life which can also affect bird strikes around the airport. This is a major safety issue that can cause major issues in and around the airport.

The community has on many occasions lodged submissions to express the issues and unfair green space plans for the area

This new plan is theft and forcing land owners out of their land. The government needs to come to the loyal tax payer's aid and assist with purchasing the land space in the green zone to ensure a fair and smooth transition of land ownership.

The large amount of stress and mental health issues caused by this decision is increasing and the government here is to blame.

Please come to a reasonable agreement with land owners so that life can continue on without the further life disruptions and issues with the council.

Appreciate you hearing our concerns and coming to assist with these issues.

Kind Regards,  
Ramin Dadisho
