I THOUGHT I WOULD TAKE THE LIBERTY OF EDUCATING YOU WHAT OPEN SPACE MEANS!

What is Open Space/Green Space?

Open space is any open piece of land that is undeveloped (has no buildings or other built structures) and is accessible to the public. Open space can include:

Green space (land that is partly or completely covered with grass, trees, shrubs, or other vegetation). Green space includes parks, community gardens, and cemeteries.

Schoolyards

Playgrounds

Public seating areas

Public plazas

Vacant lots

Open space provides recreational areas for residents and helps to enhance the beauty and environmental quality of neighborhoods. But with this broad range of recreational sites comes an equally broad range of environmental issues. Just as in any other land uses, the way parks are managed can have good or bad environmental impacts, from pesticide runoff, siltation from overused hiking and logging trails, and destruction of habitat.

NOW READING THIS, THERE IS ONLY 1 SOLUTION, BUY ALL THE OPEN SPACE AT FAIR MARKET VALUE OR OFFER VOLUNTARY ACQUISITIONS.

THANKYOU

RITA

I agree to the above statement

Yes
