Department of Planning

My name is Daniel Polus and I live at [REDACTED] Kelvin Park Dr, Bringelly with Mum and Dad and am now devastated that this has happened to our property and our fellow neighbours.

We understand and accept that ano her Airport is coming and were quite thrilled that we would be down the road from his huge development until this was exposed, how can Governments expect residents to sit and be prisoners on their own properties? Land locked for years with no assurances?

Many residents are stressed & anxious as to how can the government wi hout acquiring private property & obtaining title ownership take the land by steal h, rendering the land useless/worthless by saddling residents with heavy restrictions to achieve a green space for public purpose.

Our property had been zoned Mixed use but has now been earmarked for a future park, are my parents suppose to just sit here and rot? We cannot understand the thinking behind playing with people's lives as this was my mum and dads future pension and super and you placing them in this greenspace and not acquiring his land will now be worthless, how is this possible in this country? And how is this fair? If the government needs green space/environmental space, parks, than they must be acquired so that they can move on with their lives.

Any land required for open spaces/Environment/Recreational/Green spine SHOULD be zoned RE1 and acquired so that we can move on with our lives.

Regards

I agree to the above statement

Yes
