Submission

The Airport has been 40 years in the making to get to this point of commencement of development and it is now envisaged that the development of the initial precincts will take 30 years to develop. Is the Department of Planning & Planning Partnership seriously expecting land owners that now find themselves land locked by green zones and parks, through no fault of their own, to be held prisoners on their land, and deprived of their basic freedom right to get on with life taken away from them for an undefined period of time, that this is acceptable planning? We oppose his whole concept and planning should do the right thing with residents and acquire all the greenspace so people can move on with their lives.

I agree to the above statement

Yes
