Submission

To whom it may concern,

I have lived in Bringelly most of my life and I know for DPP to achieve its "vision" why has the Department of Planning & Planning Partnership not put safety at the forefront of designing an Aerotropolis surrounding a 24hr Airport.

The issue of creating vast green tracts of largely unkept green corridors and increasing wetlands has put safety at risk by increasing environments for the existing abundance of bird life and wildlife to remain in the area to breed and does nothing to detract more bird life & wildlife to the area from surrounding areas like the Blue Mountains & Western Sydney Parklands. It has also increased the risk of fire throughout the area with long unmaintained corridors, harbouring long dry grass and a reported increase of 40% tree canopy, on top of the dry eucalyptus trees and other dry scrub & debris adding to more ground fuel and increasing fire risk.

Why has none of these concerns previously raised by land owners, resident and the Community not been addressed, how can DOP even present this to residents leaving them sterilized for years or even decades, so I totally oppose what you have presented.

Regards

I agree to the above statement

Yes
