Can Department of Planning answer who will be responsible for the mental health of land owners and their families captured in green and environmental zones and greenspace, being forced to stay "prisoner" on their property for an undisclosed period of time? The loss of basic human rights to get on with life that is available to the rest of Australia. Due to loss of freedom & choice, Land owners will be slugged for an indefinite period of time with increased Council Rates and all the while helpless to do anything about it, as they have been deliberately land locked, for the direct benefit of the NSW Government so it can transfer privately owned land to Public purpose with no consideration for the land owner and the hardship inflicted on them for an undisclosed period of time. This is not fair or humane and who will take responsibility for the mental health and despair inflicted on land owners & their families by the Department of Planning's disgraceful planning proposal estimated to take 30 years or more on this scale, and the roll out of such a proposal, we expect more from people empowered to make better decisions and be held accountable.

Regards Andy
