4th March 2021

To whom this may concern

As a resident of my Bringelly residence of 30 years I wish to express my dissatisfaction with the currently exhibited WSAP Precinct Plans due to the EXCESSIVE amount of green space and lack of priority given to SAFETY against bird and bat strike on aircraft operations within a conflicting landscape approach to precinct planning.

To achieve its "vision" why has the Department of Planning & Planning Partnership not put safety at the forefront of designing an Aerotropolis surrounding a 24hr Airport. The issue of creating vast green tracts of largely unkept green corridors and increasing wetlands has put safety at risk by increasing environments for the existing abundance of bird life and wildlife to remain in the area to breed and does nothing to detract more bird life & wildlife to the area from surrounding areas like the Blue Mountains & Western Sydney Parklands. Why are these concerns not been considered? How is this fair or even responsible planning?

The Airport has been 40 years in the making to get to this point of commencement of development and it is now envisaged that the development of the initial precincts will take 30 years to develop.

Is the Department of Planning & Planning Partnership seriously expecting land owners that now find themselves land locked by green zones, through no fault of their own, to be held prisoners on their land, and deprived of their basic freedom right to get on with life taken away from them for an undefined period of time, that this is acceptable planning?

My request is simple I would like an individualised assessment of my property and for my entire 5 acres to be zoned without the green space zoning and can be acquired in the future at the existing zone rate without the green space allocation.

Regards Annabella

I agree to the above statement

Yes
