BRINGELLY

Submission

6th March 2021

My name is Joe Wood and I have lived in Bringelly since 1976 and raised a beautiful family, I have been told and viewed the Department of Planning new maps around the Aerotropolis and to my astonishment that we have not been included which originally we were.

How is it that we were originally in the first precinct and now we are not? Why do Department of Planning keep changing maps to suit themselves, this is playing with people's lives.

The issues of GREEN ZONES and the highway robbery price they are suggesting of \$20psm is ludicrous and this is a deliberate way to try to undervalue land out here.

How is it that Department of Planning have these glossy maps printed but show no streets, roads or boundaries so that residents can easily locate their own properties, I feel this is a deliberate way to confuse us so that we are kept in the dark.

I have attended every meeting since we have been indicated in this mess from Bringelly Hall but as Covid19 hit, I have not been able to find any information to date as I do not own a computer or internet, why hasn't the planning department been more transparent and offered people who have no access to computers newsletters that can be mailed out to keep them informed, but again a deliberate way of keeping residents quiet. We would like to question these government bodies at meetings that are held for the residents as maps, brochures, letters, websites are very vague and dishonest as they don't answer any of our questions with

what was happening.

We understand and accept that a second airport is necessary along with all its infrastructure but the misleading information given out from your department is just not fair, it seems no one can answer anything and it seems that the answer is, we will get back to you which

no-one ever does..

We bought this land for lifestyle and we didn't chose for this airport to be built, you did, so land owners need to be compensated for you interrupting their lifestyle, if you decided to paint us green than you compensate us being green, to try and make hundreds of acres green zones because you need our trees is just unbelievable.

We live in Australia, and this is un-Australian – we have rights – we need to ask for a serious investigation here to bring to light the disgraceful lack of information, how we were informed in the first instance and why were we called to attend a Community meeting that gave us no information or answers.

I would like to know what Private Land Ownership actually means in NSW and has this meaning been corroded over time through legislation.

Many residents, including myself are dealing with personal issues as cancer, old age and now have anxiety and stress over this whole situation that the NSW planning want to propose, all we want is to be treated fairly and to be on equal playing field when it comes to compensation and to be told the truth. We feel we are being sacrificed for this Aerotropolis to happen, I wonder could this be a sophisticated way off land grabbing to pay for all the infrastructure surrounding a 24 hour airport. All our letters are heard on deaf ears, Councils have said it's a State Government project, the MP's have sent out generic letters stating they know nothing about it, so where can we go? Us battlers would just like answers and not to be taken as fools.

JOE WOOD

TYSON ROAD, BRINGELLY
