Submission

To whom it may concern,

We purchased our property on Kelvin Park drive decades ago and what has now been called the Aerotropolis Core for the new Western Sydney Airport at BADGERY'S CREEK. While I have no objection to the Western Sydney Airport or the Aerotropolis, I do object with what the latest precinct plans due the amount of Environmental/Recreational land zoned on my property.

What I am concerned about as a land owner as that I have been told that only Thompson Creek will have the only option to have voluntary acquisition, how can they be zoned Environmental/Recreational as the same as 75% of my property but I do not have those assurances?

I saw that there will be a stragedy for Wianamatta South Creek Precinct, I hope the Government clearly looks at what they have done to myself and neighbours by tearing our lives apart and my retirement, as every night I go to bed thinking of my future as Governments must know that our properties have been terribly devalued.

I do not agree on the rezoning of my land environmental/recreational and leaving it under private ownership as this has now landlocked me all for the vision of this Government!

I oppose any Environmental/recreational that will not be acquired, if governments need that much green space, simply acquire it or scale it back until you can afford to buy it. Any land required for open spaces should be zoned as RE1 and acquired as would happen with any other development in NSW.

Regards

I agree to the above statement

Yes
