Submission

13/3/2020 department of planning

I have no words to what the government is trying to achieve by doing a simple land grab.

Lack of transparency and accountability. The DPIE is a fortress and the only means of communication available to us, is being herded into lodging submissions, whereby we are required to submit our issues and concerns individually, but do not get individual answers or a response to our submissions. We get a paragraph, if we are lucky in a shiny brochure broadly covering some issues raised, many issues continue to be unanswered from Stage 1 initial LUIIP release.

- We strongly oppose any Environmental & Recreational land being left under private ownership, as you can do nothing with the land, for example build on it, put a pool in nothing.
- Why is Thompson's Creek residents the only location given certainty their land will be acquired and no one else in the whole initial precinct release.
- The uncertainty on time frames when people will be acquired and can get on with their lives not held prisoner on their land for possibly decades. Imposing loss of freedom is surely a Human Rights issue and a serious breach of United Nations Human Rights (UNHR) Article 17.2.

Why hasn't the government done the right thing with us and put in a corridor to our environmental/recreational land and paid us what is market value is?

Why hasn't the mixed zone on my property not been taken all the way to the medium flood lines? This would be a much fairer system.

Who is responsible for my mental health as the years have been tough for and my family with no compassion from the DPP who I have told in every zoom meeting?

Who will take responsibility for the devaluing on my property?

DO THE RIGHT THING AND BUY ALL THE E&R LAND IF YOU NEED IT, SCALE IT BACK IF YOU CANNOT AFFORD IT.

THANKYOU

I agree to the above statement

Yes
