To Whom It May Concern

I live in Brucedale Drive, Brucedale and am very concerned about the Special Activation Precinct.

My house has views over the land where the SAP is supposed to be built and I am worried that I will look out my window and see factories instead of the farms I see now.

I am also worried about the smell. We already can smell the oil factory and if more factories like this get built, the smell will be very bad and I won't be able to play outside.

I think solar farms are great but I don't think they should be built so close to houses. There is lots of farmland around where these solar farms can be built away from where people live. I think that there should be no solar panels built around Mt Pleasant Brucedale.

I love living at Brucedale and I don't want my home ruined by having factories and solar panels all around us.

Yours faithfully

Jackson Myers
