Submission: With respect to the SAP: Extensive road infrastructure upgrade is required for this Moving freight on to rail is ideal, but there will still be a huge increase in local road traffic to service the rail hub. There are turtles (Eastern long necks) that breed adjacent to the Olympic highway, and no mention to date of preserving their habitat OR ensuring that road crossing safety can be improved for these. Please ensure this is all carbon neutral, and extensive measures for water recycling. Allowing planning to go ahead without local oversight is of concern,
