

Overview

The following enhancements are delivered in the Minor release.

Key Features

JIRA ID	Description	Digital Service/API Impacted
CONAPI-3	In all the outbound API calls from ePlanning to API consumers, individual address elements are supplied along with the full address string to allow the receiving systems to perform address match into their systems.	Online DA, Online Certificate Registration, Online Post-Consent Certificate, Online CDC APIs
CONAPI-168	10.7 - CDC - System create child case ID/related case id automatically once, the related case id to be passed as part of response file.	Online CDC API
CONAPI-167	Online CDC - System create s68 case automatically under relates cases tab once the CDC case been submitted and currently the related case id to be passed as part of response file.	Online CDC API
CONAPI-164	Online Certificate Registration API YAML displays CDC number as 0.0 instead of string.	Online Certificate Registration API
CONAPI-153	sApplicantCouncilMember , isApplicantRelatedToCouncil attributes are validated and work.	Online DA API
CONAPI-151	1: File management - MetaData schema need modification: Replace 'UpdatedBy' by updatedByEmail 2: Payment Management amendment – all other APIs must be consistence except DA.	Online Certificate Registration and CDC APIs
CONAPI-170	It is not applicable for Owner applicant consent declaration passes as false.	Online DA API
CONAPI-169	Issue 1: CouncilDANumber attribute is passing though is not applicable Issue 2: Staged development is passing same as 'true' and is not same as UI value	Online DA API
CONAPI-166	Security question - YAML inconsistency update	Online CDC API
CONAPI-176	Council officer assigns a case to other council user where email id/user not yet in the system and error message misleading/confusing. Fix error message.	Common API - Reassign
CONAPI-177	Trigger an outbound API to Council, Reassign API call from ePlanning to Council whenever a case to reassign from one council officer to another. This was requested by Liverpool council to keep their system in sync in the portal when their officer to come in and perform this action (Kevin to Test)	Online DA API

Integration API Production Release Notes

March 2021

CONAPI-135	Responding to an additional information via portal, document url of the newly added document is generated as "documentURL": "trueDATA-WORKATTACH-FILE PEC-DPE-EP-WORK AI-4043!20210119T045834.780 GMT". Fixed is required.	Online Certificate Registration API
CONAPI-159	ZoneObjective and developmentgStandardVariations rectify format.	Online DA API
